

Digitalisation of your processes with the

LAUNDRY SOFTWARE TIKOS

Business solutions

The laundry software –
numerous modules for ultimate flexibility and transparency

Covering all laundry processes

The laundry software for consistent digitalisation of your processes. Make your production paperless and raise your customer service to a higher level.

TIKOS represents a comprehensive ERP system and, as a modular system solution, supports both large laundries and smaller businesses. Over 350 laundries throughout Europe and the Middle East rely on TIKOS. Innovative software products and modern app and web solutions make us a strong partner for the future orientation in the context of digitalisation and automation.

The key features of TIKOS:

- **Consistent process management and full traceability**
- **Powerful modules for high performance**
- **Standardised operation and master data for all modules**
- **More than 600 reports and evaluations**
- **A variety of export formates (e.g. PDF, Excel, CSV)**
- **Numerous interfaces for individual and absolutely flexible use**

The TIKOS contact management with resubmission and serial letter function supports you in communicating with your customers. Via drag&drop, all documents or emails can be quickly stored and archived in any master data record. With TIKOS, you increase your performance and your service range for your customers.

TIKOS – software for laundry 4.0

Whether as a complete system for comprehensive process management or as a modular individual solution: our consistent module family with over 40 modules offers you exactly the software components you need for the continuous digitalisation of your processes.

Interfaces / integration in TIKOS

We check the technical possibilities of your requirements and develop an individual interface for you - to the bookkeeping software, to machines in your production, etc.

High level of service and professional consulting

Take advantage of our wide range of services - from training courses and professional consulting to a rental model and 24/7 support.

Our trainings: further education with impact

General webinars or training courses specially tailored to your needs - you always receive first-hand information, tips and tricks. Become even more effective in your work with our software, app and web solutions.

Our consulting: reaching the goal together

With our many years of experience, we can support you with advice, analyse your production processes from A to Z and show you opportunities and potential. The goal: reduce costs, preserve resources, and set new quality standards for your customers.

Support: available at any time

Our experienced staff in the areas of support, IT, and programming are always happy to help you. Day and night -at any time.

Documentation: detailed and structured

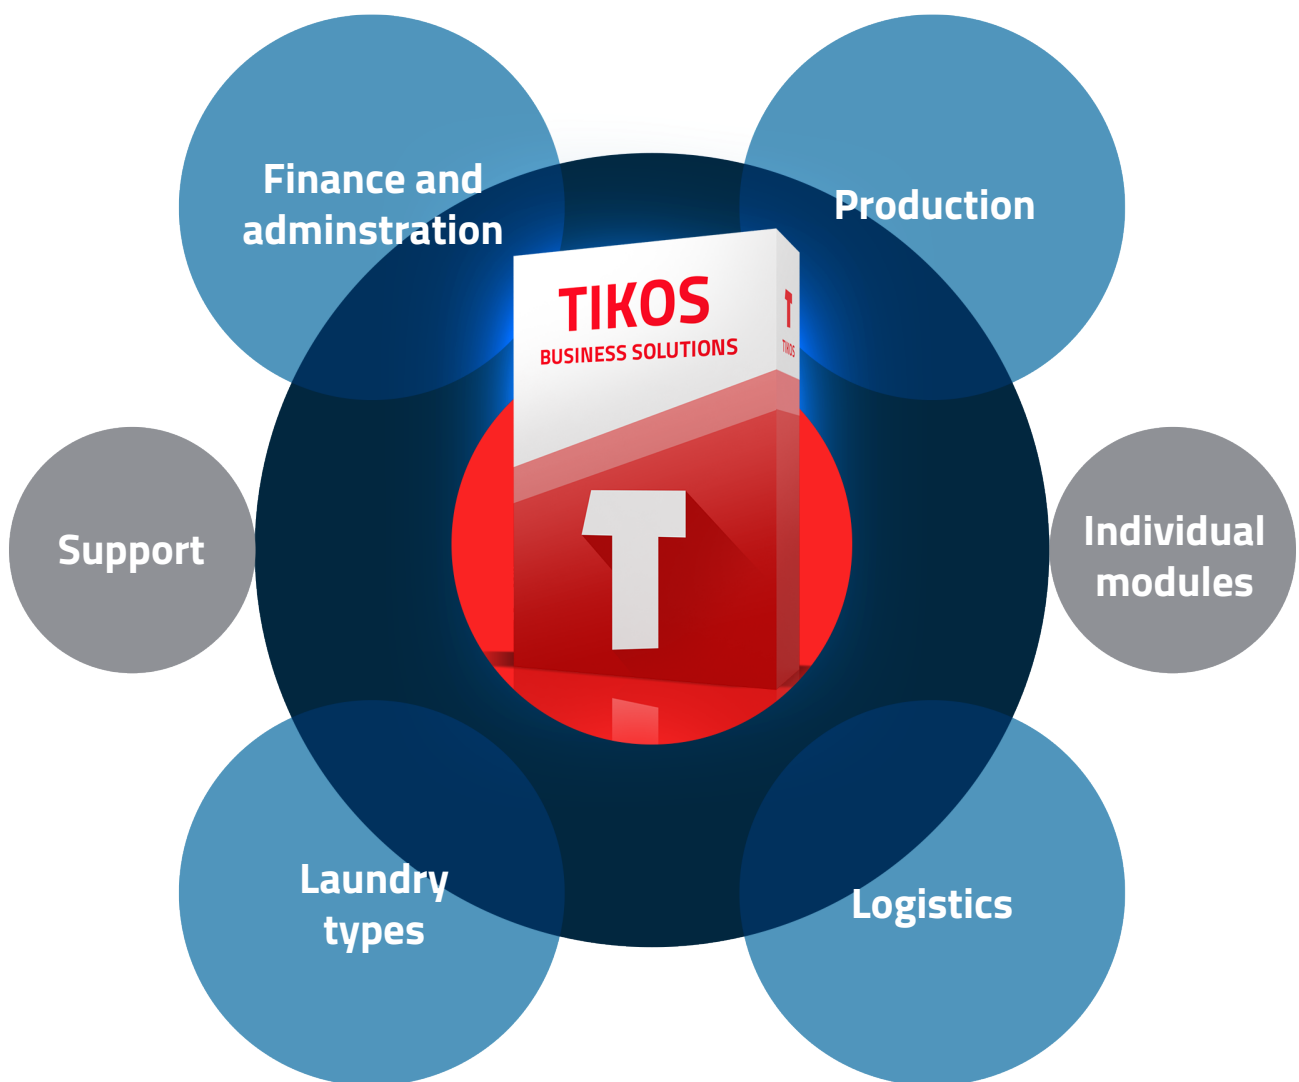

Detailed documentation helps you in the daily use of our software. All functions and use cases can be looked up at any time - for the best possible use in your company.

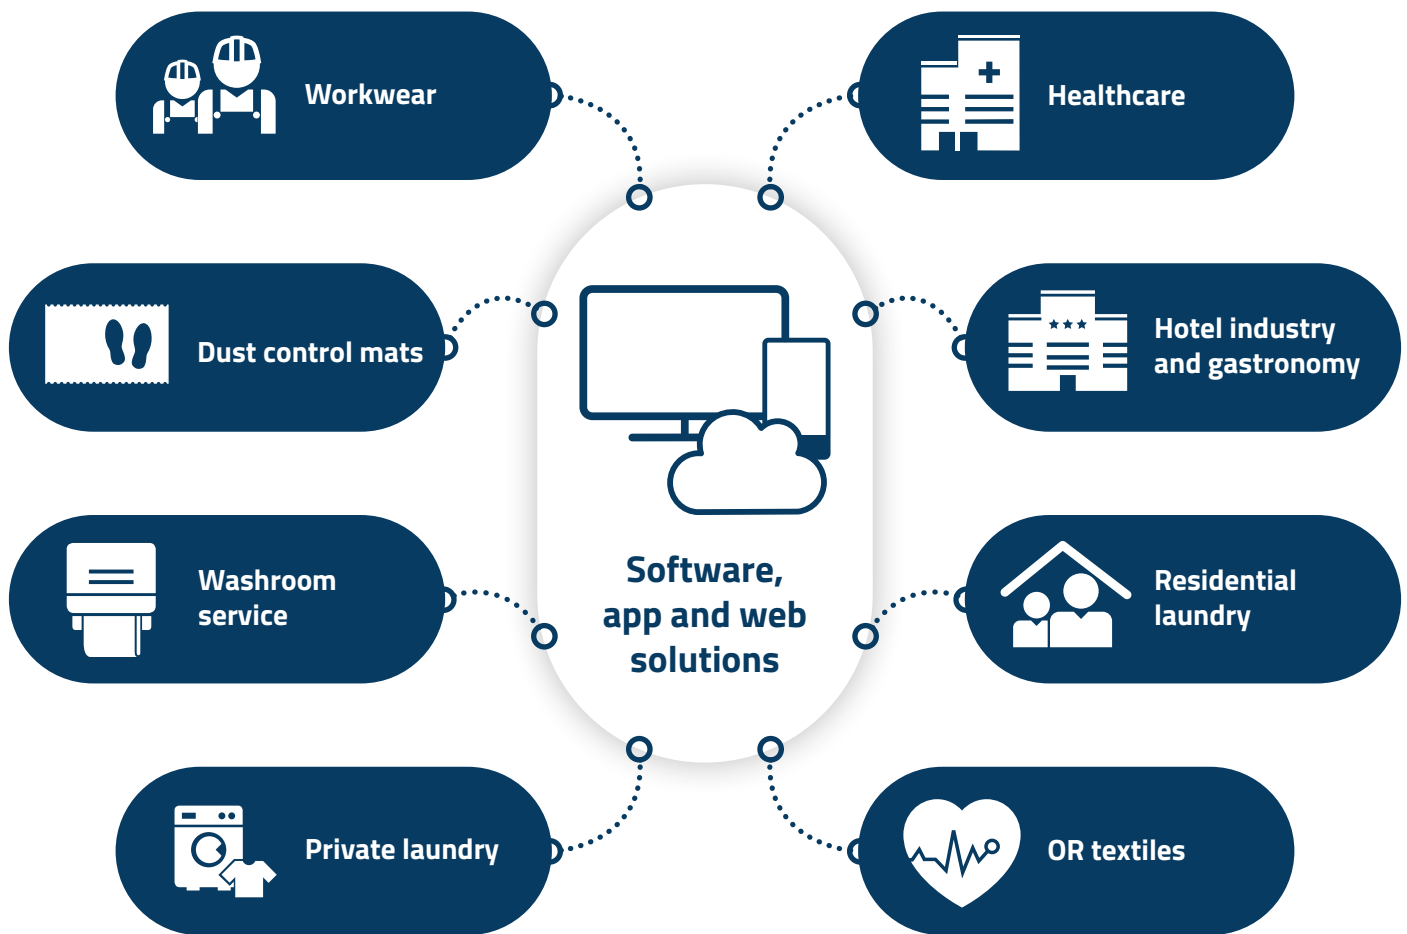

Consistent and powerful with numerous modules

TIKOS offers a powerful software solution for consistent digitalisation.

Discover our digital solutions for your laundry 4.0

Digital services and processes are the challenges of the future. Technologies such as RFID create absolutely new possibilities for paperless production. Start with us into the future of laundry 4.0.
